

Will My Child's Hearing Aids be Covered by Insurance?

*IMPORTANT TO REMEMBER

- **Do your Homework!** Always check with both your audiologist and insurance company BEFORE you order your devices to ascertain exact amount of coverage you will receive to avoid surprises.
- **Appeal!** Some families have not been given full benefits but have received them through an appeal process.
- **Shop Around!** You have the right to contact different providers to see if you can get increased coverage depending on the type of insurance they accept; however, we strongly suggest you find a pediatric audiologist who is trained in fitting hearing aids for children.
- **Give feedback!** Email us at info@letgeorgiahear.org and let us know how the process is going for you so we can help other parents.
- **Investigate other Resources!** Some of our favorites are <https://lionslighthouse.org/childrens-hearing-programs/>; <https://www.uhccf.org> & <http://www.2020hearing.org>. More can be found at www.letgeorgiahear.org/resources.
- **Full text of the Hearing Aid Coverage for Children Act can be found at <http://www.legis.ga.gov/Legislation/20172018/170800.pdf>.**
- **We have done our best to make sure the information above is accurate but coverage is constantly changing. Please email us at info@letgeorgiahear.org, so we can make updates as needed.**
